

October 24, 2019 – ABSS Solutions, Inc. (ASI) is pleased to announce the award of a five-year, \$40M contract to provide Network Infrastructure Support Services to the US Census Bureau’s Telecommunications Office (TCO) via the National Institutes of Health Information Technology Acquisition and Assessment Center’s (NITAAC’s) Chief Information Officer-Solutions and Partners 3 (CIO-SP3) Small Business government-wide acquisition contract (GWAC) to ASI’s Joint Venture, 1st American IMTS, LLC.

In addition to ASI’s Joint Venture, the team included strategic small business partners, Versa Integrated Solutions, Inc. and Obverse Inc. The ASI team was selected to support TCO with its mission to provide its customers with excellent telecommunication and network services through the use of state-of-the-art technologies, "best practice" procedures, and appropriate risk and cost containment strategies. Additionally, TCO serves as the center of excellence for all networking, mobile, collaboration, and teleconferencing services within the US Census Bureau.

This large scope effort includes supporting activity around:

- Project Management,
- Risk Management,
- Change Management, and
- Strategic Planning.

Additionally, the team will assist TCO with the development and implementation of technology solutions around:

- Mobile and Multi-Media Support,
- Identity Management and Domain Services,
- Network Infrastructure, and
- Network Security.

“We are delighted to have the opportunity to provide the US Census Bureau with our expertise over the coming years as they further develop and execute their modernization strategy, operations support, and delivery of Network Infrastructure Support services. We understand the importance TCO’s services in the execution of the Bureau’s mission and look forward to working closely with them to deliver excellence within their organization,” said Russell D. Henderson Jr., President and CEO of ABSS Solutions, Inc. and it’s affiliates, 1st American Solutions and Services and 1st American IMTS.
